Wednesday, 8 March 2017 | 4 - 5:30 pm
ITB Berlin | Hall 15, Booth 101
Bulgarian National Tourist Office

Founded in 2015 and initially co-funded by the European Union the “Roman Thermal Spas of Europe” are a joint initiative of European thermal spas and health resorts sharing a common Roman origin. All destinations have kept up this heritage vivid and visible until today. Based on the intersection of spa and cultural tourism they offer unique combinations of European culture, heritage, spas and health. Our mission is to promote our member destinations by providing services and tailored travel packages to tour operators and other multipliers worldwide. The objective is to create high visibility and awareness among defined target groups and to ensure that the destinations will attract attention of tour operators and potential guests.
